Tobacco Implementation Guide-Vital Signs

Vital Signs

| | | |
|--|---|--|
| <p>What was the date of the measurements? (DD-MMM-YYYY) <i>Record date of measurements.</i></p> | | <p>VSDTC VSDAT</p> |
| <p>What was the time of the measurements? (24 hour clock) <i>Record time of measurement.</i></p> | | <p>VSDTC VSTIM</p> |
| <p>What was the result of the height measurement? <i>Record the height result.</i></p> | | <p>VSORRES where VSTESTCD = "HEIGHT"SBP" HEIGHT</p> |
| <p>What was the unit of the height measurement? <i>Record or select the original unit in which these data were collected, if not pre-printed on CRF.</i></p> | <p><input type="radio"/> Centimeter <input type="radio"/> Inch</p> | <p>VSORRESU where VSTESTCD = "HEIGHT" HEIGHTU</p> |
| <p>What was the result of the weight measurement? <i>Record the weight result.</i></p> | | <p>VSORRES where VSTESTCD = "WEIGHT" WEIGHT</p> |
| <p>What was the unit of the weight measurement? <i>Record or select the original unit in which these data were collected, if not pre-printed on CRF.</i></p> | <p><input type="radio"/> Kilogram <input type="radio"/> Pound</p> | <p>VSORRESU where VSTESTCD = "WEIGHT" WEIGHTU</p> |
| <p>What was the result of the temperature measurement? <i>Record the temperature result.</i></p> | | <p>VSORRES where VSTESTCD = "TEMP" TEMP</p> |
| <p>What was the unit of the temperature measurement?</p> | <p><input type="radio"/> Celsius <input type="radio"/> Fahrenheit</p> | <p>VSORRESU where VSTESTCD = "TEMP" TEMPU</p> |
| <p>What was the result of the respiratory rate measurement? <i>Record the respiratory rate result.</i></p> | | <p>VSORRES where VSTESTCD = "RESP" RESP</p> |

CRFs are annotated to show the collection variable (in Grey) and the tabulation target/mapping instructions (in Red).

Tobacco Implementation Guide-Vital Signs

Vital Signs

What was the unit of the respiratory rate measurement?
Record or select the original unit in which these data were collected, if not pre-printed on CRF.

VSORRESU where VSTESTCD = "RESP"
 RESPUU

What was the systolic blood pressure measurement?
Record the systolic blood pressure result.

| | | |
|--|--|--|
| | | |
|--|--|--|

VSORRES where VSTESTCD = "SYSBP"
 SYSBP

What was the unit of the systolic blood pressure measurement?
Record or select the original unit in which these data were collected, if not pre-printed on CRF.

VSORRESU where VSTESTCD = "SYSBP"
 SYSBPU

What was the diastolic blood pressure measurement?
Record the diastolic blood pressure result.

| | | |
|--|--|--|
| | | |
|--|--|--|

VSORRES where VSTESTCD = "DIABP"
 DIABP

What was the unit of the diastolic blood pressure unit?

VSORRESU where VSTESTCD = "DIABP"
 DIABPU

What was the pulse measurement?
Record the pulse rate result.

| | | |
|--|--|--|
| | | |
|--|--|--|

VSORRES where VSTESTCD = "PULSE"
 Pulse

What was the unit of the pulse measurement??
Record or select the original unit in which these data were collected, if not pre-printed on CRF.

VSORRESU where VSTESTCD = "PULSE"
 PULSE

CRFs are annotated to show the collection variable (in Grey) and the tabulation target/mapping instructions (in Red).
